TECHNICAL DETAIL

MEMBRANE DOOR

The Indefinable finish of our range of membrane doors sets a standard for makers to follow. We offer a choice of membrane doors ranging from single & elegant to intricate and stylish patterns. The doors have profile edges and the membrane is pressed with quality PVC foil, thus ensuring quality assessment at every stage of development and deliverance of flawless products.

TEXTURE DOOR

Texture doors are made by embossing a texture onto the surface of the door. The texture can be of various designs and patterns, such as wood grain, stone texture, or abstract designs. The texture adds depth and character to the door and makes it look more attractive. Texture doors are durable and can withstand wear and tear.

We offer a range of texture doors that are available in different materials such as HDF, MDF, and WPC. Our texture doors are available in various sizes and designs, and we can also customize them as per the client's specifications.
